

Stanley A. Gall, MD

Stanley A. Gall, MD is a Professor of Obstetrics, Gynecology and Women's Health and Professor of Public Health and Information Sciences at the University of Louisville, Louisville, Kentucky.

Dr. Gall has been ACOG's liaison member to ACIP since 1995. He is currently active with ongoing vaccine clinical trials with HSV II vaccine (Herpevac) and has been involved with HPV trials since 2000. Dr. Gall's special interest is in maternal immunization with the concept of protecting mothers from vaccine preventable diseases and protecting the neonate with passively acquired antibodies for the first 3 to 6 months of life.

Dr. Gall's research efforts have centered on Immunology and Infectious Disease in Obstetrics and Gynecology. In the last 8 years the emphasis has moved toward clinical vaccine research.

Dr. Gall graduated from the University of Minnesota School of Medicine and completed an internship at the University of Oregon Health Sciences Center, followed by a residency in Obstetrics and Gynecology at the University of Minnesota.
