The National Foundation for Infectious Diseases (NFID) is a non-profit 501 (c)(3) organization founded in 1973 and dedicated to educating the public and healthcare professionals about the causes, treatment, and prevention of infectious diseases. NFID achieves its mission by supporting research and training, building coalitions, and honoring scientific and public health achievements.

Through donations and partnerships, NFID is able to conduct public awareness campaigns and professional education about vaccine-preventable diseases throughout the lifespan.

Your contribution will help NFID continue its important work towards the prevention and treatment of infectious diseases.
