

Trish M. Perl, MD, MSc

*Associate Professor, Department of Medicine and Pathology
Johns Hopkins University School of Medicine*

Department of Epidemiology
Bloomberg School of Hygiene
Johns Hopkins University

*Director, Hospital Epidemiology and Infection Control and Hospital
Epidemiologist
The Johns Hopkins Hospital*

Trish M. Perl, MD, MSc, is an associate professor in the Departments of Medicine (Infectious Diseases) and Pathology at Johns Hopkins University School of Medicine in Baltimore, Maryland, and in the Department of Epidemiology at the Bloomberg School of Hygiene at Johns Hopkins University. Dr. Perl is also Director of Hospital Epidemiology and Infection Control, and the Hospital Epidemiologist at The Johns Hopkins Hospital.

Dr. Perl received her Bachelor of Arts and medical degree from the University of North Carolina at Chapel Hill and a Master of Science degree from McGill University in Montreal, Canada. She completed an internship, residency, and fellowship in internal medicine at McGill University (Royal Victoria Hospital) in Montreal and a fellowship in infectious diseases and clinical epidemiology at the University of Iowa Hospitals and Clinics in Iowa City, Iowa.

Dr. Perl is the 2006 President of SHEA. She has served on the nominations and bioterrorism committees. She is a member of the American College of Physicians, American Society of Microbiology, American Federation for Clinical Research, and the Infectious Diseases Society of America. She serves on the annual planning committee of the Association of Practitioners of Infection Control. In the past, she has served on advisory panels for the CDC and been a consultant to the NIH and ARHQ. She currently serves on the editorial board of the *American Journal of Infection Control* and is a reviewer for *Infection Control and Hospital Epidemiology*, *JAMA*, and the *New England Journal of Medicine*. An active researcher, Dr. Perl has been a principal and co-principal investigator for studies on healthcare associated infections and antimicrobial resistance for the Centers for Disease Control and Prevention. She has authored or coauthored over 55 peer-reviewed articles for the *Journal of the American Medical Association (JAMA)*, *New England Journal of Medicine*, *Annals of Surgery*, *Infection Control and Hospital Epidemiology*, *Clinical Infectious Diseases*, *American Journal of Infection Control*, *Critical Care Medicine*, and the *American Journal of Medicine*. In addition, she has written multiple chapters and contributed to guidelines and policies relevant to healthcare associated infections.

Her scientific interests encompass Avian Flu, *Clostridium difficile*, surgical site infections, emerging infection prevention and interventions to prevent healthcare associated infections, bioterrorism preparedness, and patient and healthcare worker safety.
